

High Build Primer

Description

A high-build, quick drying and flexible primer, great for filling imperfections. It is not suitable for bare surfaces (eg metal, plastic or fiberglass.)

Mixing Ratio(not relevant to touch ups or aerosols)

Your primer will already have been mixed 1:1 with the appropriate thinner/reducer.

Application

Ensure all surfaces are clean, dust free and have been degreased.

Air cap: 1,4 - 1,6 mm

Apply 2- 3 light coats.

Drying at 20°C

Allow 10-15 minutes between coats

Thorough drying in 1 hour.

Rub down lightly with 800 sandpaper.
